

In the name of Allah,

My honorable brothers and sisters,

I am addressing you as the head of HUDA PAR the youngest party of Turkey.

May Allah's blessings, mercy and peace be upon you.

Perhaps some of you hear the name of the HUDA PAR for the first time.

The more you know HUDA PAR the better you will see HUDA PAR is yours and represents you.

For sure HUDA PAR was founded by us. However it is your party.

HUDA PAR is the political full equivalent of your choice which is shaped by your faith that you bear in your heart world.

You are the members of a great civilization which cherished good days upon humanity.

HUDA PAR exists for you to actualize the goals that you, as members of this great civilization, desire for yourselves, for your land, for your country, for humanity and for the world.

HUDA PAR is the party of your world and your hopes.

HUDA PAR has been on the arena of politics since 2013. This is the first time it participates in an election throughout Turkey. Because there are things that HUDA Par wants to do for every span of this country.

HUDA PAR promises to reflect the voice of those at every inch of this country from Edirne to Hakkari, from Sinop to Antakya who utter **"I also do say Humanity First, Justice is Prominent"** in Grand National Assembly. It wants to conduct an honorable politics which comes out of your heart for beloved people of this precious country.

My dear brothers and sisters,

We do say "humanity first, justice prominent"

Why? Because according to our road book of our great civilization says the human is the noblest creature, the most precious of all living beings. Human is the lord of the earth. He is worthy of getting every service. Owing to that belief, we consider all people of this country as our brothers in humanity.

Our party is the party of every individual who regards himself at this position granted by Allah.

"Justice is prominent" we say. Because,

Justice is the sovereignty of God. Only if justice is available, the righteousness has been served. There occurs tyranny where there is no justice. Tyranny is darkness. Darkness means ungratefulness. It is denial of God. We are aware of this country's anguishes. We are aware of this country's acquisitions as well. We are well aware of the importance of the stability for this country. You do believe that you need a cadre that can represent you thoroughly in the parliament in order to sustain the stability with new gains and to put out the miseries which are felt even to the marrow. You do want your voice to be resounded strongly in the parliament.

My brothers who are listening to me in the radios and watching me on the televisions,

Please, convey our messages to those who are unavailable to watch or listen to me now!

The presence of HUDA PAR, your party, in this election is to meet your need to be represented.

With God's permission you will say our deputy, HUDA PAR, is in the parliament while you are with your children at home or you are at work.

You will witness your representation is realized at top level as if you are in the parliament in person.

You, the ones acting as principal, will be proud of your representatives who you send to the parliament. You will take pride in your decision of selecting HUDA PAR.

My dear brothers and sister,

We thank and appreciate to those who put a brick on the construction of this country.

While we experience a material development we also suffer from moral emptiness. We are developing worldly; however we feel lack of contentment in our inner world.

This is not a desperate state.

We are the passengers of a glory path.

It is possible to progress both worldly and spiritually in our path.

Your HUDA PAR pledges you such a progress.

Our sense of solidarity and civilization was harmed by imported capitalist economic conception which is stranger to us. As a result of this the rich got alienated to the poor. Children of these two sects grow in separate spheres, have education in different schools, they don't take each other's point nor can understand each other.

In this capitalist system, parents have to work in factories, in mega malls' cave like warehouses or in dingy textile mills for a wage that drag them on the brink of starvation. Children, who are like orphans, wait them in their house are unsaturated with parental love. Furthermore they cannot eat their fill with this paid salary. This is not fair.

Your HUDA PAR promises a developed Turkey where the rich don't feel strange in their society while getting richer or don't forget their brothers and parents who don't have to work under the starvation line.

We will both develop and never lose our souls. You do believe in this. If so we can all achieve this together.

My dear brothers and sisters, we are aware of your grievances because we feel likewise. That's why we say humanity first and justice is prominent. So as to live humanly, the justice must be prioritized. To do this, there must be justice in jurisdiction, in economy, in politics. We stress fairness in distribution of income, in tax collection, in representation and in employee recruitment.

There is no justice in jurisdiction.

There are 254 thousand of prisoners and detainees in penal institutions.

There are 7,5 million court files with an assumption at least 2 defendants, 2 witness and 2 complaints roughly 40-50 million people in total languish at the courts.

This is not a normal state.

There still hundreds of your brothers victimized during 28 February period are in prisons.

We are pretty sure that we know about some inmates serving their sentence for nearly 30 years unjustly. They are behind the bars as you are listening to us now.

These young people who were put in these jails at the age of 18-20 are still being rotted in their fifties.

Stopping this atrocity depends on the representation of your HUDA PAR which indeed feels this sorrow in the heart.

On the pretext of security investigations our very young graduated sons and daughters at the age of 22 aren't being employed in the state offices.

When has Turkey experienced this before? No such thing takes place in our memories.

If the successful sons of this country are being barred from state offices by job interviews and if the empty positions are being sold by auctions, it can be said that the salt begins to stink.

Your HUDA PAR will be in the parliament on behalf you and I promise that it will strive to end this course as if the birth mother and father of those young people who failed in those interviews.

My honorable mothers and fathers and young brothers and sisters who are listening to me;

In our civilization all believers are but brothers. There has never been a ban of language prohibition in any phase of our history.

Turk,Kurd,Arab,Laz,Circassian,Abkhasian,Bosnian,Albanian...

Aren't we all followers of Prophet Mohammad? If so why do we act superior to each other? Why do we consider our rights as something against each other?

Unfortunately we faced this shameful, heinous and terrible prohibition after the western civilization's discriminatory racism instilled in our civilization.

Turkey has gained ground on this issue and partially got rid of this shame. Yet, it must be covered with constitutional guarantee.

Unfortunately, as for Kurdish issue, only the results of the case have been discussed so far. Imperialists who long to possess Islamic lands are consuming our energy by making us to discuss only the results of the problem.

Those who never wish our favor are trying to drown us in these consequences by generating controversial results.

Be sure that goodness of anyone is goodness of all. Sorrow of anyone is sorrow of all.

It is because of malign ideologies come from west exposed us to language prohibitions.

Let's trample on every kind of racism as our Prophet, May Allah's blessing upon to Him, enjoins in His last sermon. Let's not give credit to our enemies by setting obstacles in front of our languages. Let's haul this blessed country to peaceful days all together.

My brothers and sisters,

Regrettably, concept of the family was rendered damaged by imitated laws which were imported from abroad. And consequently families were dispersed and a generation without family in which

children have to side either their father or their mother has grown up deprived of a family affection. Besides this, we are facing such a social disaster that children kill their parents and parents kill their children.

Plus, when the problems of our education institutions are added a nonassertive youth has grown up who don't believe in their values, don't know etiquette and cannot use their hands but a generation only spends all their time in front of television. Our youth is our future. A youth who doesn't bear responsibility, doesn't answer to someone or call somebody to account for and doesn't produce is a dead future.

Moreover, the plight of Islamic Ummah is in the open; our Quds is awaiting Selahaddins and Fatihs to be saved.

Your HUDA PAR is going to be the core of our civilization; it promises to raise a productive and a leading youth grown up in a sturdy family, counts on his civilization's source and values and also knows etiquette.

We believe that Selahaddins and Fatihs will appear among a highly skilled youth who are grown up with having faith in their heart and having qualified training and education. We herald you with such a youth that will bring primarily the salvation of Quds and all Islamic Ummah.

As I complete my speech,

I would like to promise HUDA PAR's 24 commitments in presence of you for 24 June elections. I'd like you to witness this testimony.

In the case of HUDA PAR's rule,
